

KMR WoodWorks

Dining Table Care Instructions

Congratulations on your new KMR WoodWorks dining table! Our tables are crafted with the finest materials and designed to last for generations. To ensure your table stays beautiful and functional, follow these care instructions:

Daily Care:

- We recommend soapy water to clean your table. Common household cleaners are fine to use as well.
- We do not recommend any products with bleach. Do not use Magic Erasers as they will scratch the surface.
- Avoid placing hot pots directly on the table; always use trivets or hot pads.

Special Considerations:

- For light scratches, use a furniture touch up pen that is the same color as your table. A fine buffing pad may help as well.
- Give us a call for deep scratches and large damaged areas.
- When moving your table, always lift it from the base, not the tabletop. Do not push or slide the table as dragging can damage the legs and joints.

Preventative Maintenance:

- Keep your table in a humidity controlled environment to prevent warping and cracking.
- Avoid placing your table in direct sunlight which may cause discoloration in the finish.
- Manage spills by cleaning them up immediately.
- Apply furniture polish or wax monthly to maintain the luster and provide a protective layer.

By following these care instructions, your KMR WoodWorks dining table will remain a cherished centerpiece in your home for years to come. Enjoy the beauty and craftsmanship of your table, and remember that proper care will keep it looking its best.
